All right, Uncle Sil, we're fixed for you. We've got all kinds of boards—common ones for hog pens, sheds, etc., and the best that's for fine work. Best of all, our prices are right.

The total output of peas by the Yale
Canning Co. this year is 206,075 cans.
Considering the unfavorable season and
the farmers being backward in taking
hold of the enterprise, Manager Staff
says he is well satisfied with the out-
put. The machinery is being gotten
ready to take care of the corn crop.

At a special session of the OES Wed-
nesday evening Mr. and Mrs. W. H.

by those who had charge of the lunch

Abe Krupp advertised his farm for
sale this spring and would have taken
at that time \$5,000 for his 160 acres,
but now he says \$8,000 would not be
much of an inducement for him to
sell it. His reason for changing his
mind is this spring he sowed six acre
of peas for the Canning Company
and received for the crop \$447.10. Af-
ter paying for his seed, including corn
and peas, he has \$347.10 left, an aver-
age of \$57.85 net per acre.
